EXPERIENCE

Accenture | Data Analyst

I&F Decision Science Practitioner Associate • Nov 2025 - Present

- Performed data analysis and reporting to generate actionable business insights and support strategic decision-making.
- Developed and optimized dashboards, visualizations, and reporting solutions using Power BI, SQL, Python, and Advanced Excel.
- Contributed to reporting automation, reducing manual effort and improving operational efficiency.
- Applied AI-enabled technologies and automation methodologies to streamline workflows and enhance productivity.
- Maintained data integrity, governance, and compliance standards while ensuring reporting accuracy and reliability.
- Collaborated with stakeholders to translate business requirements into scalable analytical and reporting solutions.
- Supported business operations through enterprise applications, including Workday and ServiceNow.
- Drove continuous improvement through innovation, process optimization, and data-driven best practices.

TELUS Digital | Data Analyst

Jan 2025 – Oct 2025 • GIFT City, Gandhinagar

- Analyzed call-center data from CRM records, call logs, and QA scores in Google Sheets to identify trends in AHT, ASA, and abandonment rate; contributed to a 15% reduction in call wait times.
- Developed interactive Looker Studio dashboards for stakeholder monitoring of CSAT and FCR, supporting improvements in first-call resolution.
- Forecasted call and chat volumes through trend and root-cause analysis to support workforce planning and align agent capacity with demand.
- Monitored QA scores, CES, and SLA adherence; identified underperforming segments and collaborated on improvement actions.

Virtueinfo Soft Web PVT LTD | Android Developer

Internship • Mar 2024 - Sep 2024 •

PROJECTS

Airbnb Price Analysis | Python

- Analyzed the NYC Airbnb dataset to explore pricing patterns by location, room type, and host characteristics.
- Cleaned and processed data with Pandas, including handling missing values and outliers.
- Visualized pricing trends using Seaborn and Folium geospatial mapping.
- Identified a relationship between borough/location and average nightly price; built a simple linear regression model to estimate listing prices.

HR Analytics | Power BI

- Developed a Power BI dashboard to analyze and visualize key employee attrition metrics.
- Tracked attrition by age, education, salary category, tenure, and job role.
- Incorporated job-satisfaction ratings by role to highlight potential employee-engagement opportunities.
- Presented insights to support data-informed retention strategies.

Zomato Sales Analysis | SQL

- Analyzed spending patterns, user engagement, and initial user preferences using SQL on Zomato data.
- Examined top-selling items, order trends, and customer spending before membership to identify behavioural patterns.
- Summarized findings into actionable recommendations related to customer engagement and sales.

EDUCATION

Indus University | B.Tech, Information Technology | 2020–2024 | Ahmedabad

TECHNICAL SKILLS

SQL, Microsoft Excel / Advanced Excel, Power BI, Tableau, Python, Data Visualization, Pandas, Data Cleaning, Looker Studio, Reporting & Dashboarding, Data Analysis

RELEVANT COURSEWORK

Data Structures and Algorithms • Introduction to Machine Learning • Introduction to Artificial Intelligence • Database Management • Big Data Analytics

CERTIFICATIONS

- Certification in Python Programming
- Power BI Certification (Udemy)
